

Bulk Boxes

Big Box Containers

Standard Features

- One-piece seamless construction for greater strength and durability - can be used for liquid applications.
- Durable sidewalls provide rigidity and improved load transfer to the corners.
- Coved reinforced corners provide strong reinforcement and eliminate sharp angles that trap dirt and debris.
- Positive base to top interlock allows self supporting stacks, with or without lids.
- Smooth interiors allow for easy cleaning.
- Beveled forkstraps allow for smoother and more rapid handling.
- 4-way forklift entry that is compatible with domestic pallet jacks.
- 100% recyclable.
