

Economy Cage Totes

Our liquid handling totes provide efficient and economical shipping, handling, dispensing and storing of a wide variety of bulk food and chemical liquids where less than tanker load quantities are required. Features a forkliftable/pallet jack accessible bottom and are stackable two-high when full and stationary.

Also features a slightly sloped, bottom discharge channel into a 2" outlet with ball valve for positive drainage. Pumps, valves, hoses and other fixtures can easily be mounted to these vessels to create a variety of liquid handling systems.

USG	IG	LTR	Part #	Length (in)	Width (in)	Height (in)	Fill/Discharge Opening (in)
220	183	833	PPSP220UNSTD (Steel Base)	48	40	40	6 / 2
