

## Fire-Fighting Pumps & Carts

### 5.5 HP Fire Pump Cart

This handy all-in-one fire-fighting solution carries a powerful pump that shoots water up to 85 ft! All fittings are included. The system includes a 2" suction hose (12' long), foot valve, 1 1/2" fire hose (50' long), priming jug and fire nozzle. Plus, the oversized wheels on the cart allow for easy transportation.

Part #	Motor Type & HP	Max. PSI/Head	Max. Flow Capacity	Outlet Size (in)	Liquid Temp.	Seal Type	Housing/Impeller Type
HPFC-2065HR	5.5HP Honda GX200	85/197	126 GPM	1" Forestry Coupling	100 F	EPDM	Aluminum

## Fire-Fighting Pumps & Carts

### Fire Pumps

These heavy duty, high pressure centrifugal aluminum pumps provide a highly reliable, economical solution to applications where high volume, high pressure water is needed. Because of this, they're most commonly used in fire-fighting. They feature heavy duty impellers and a manual, pull-cord start. A low oil shutdown alert feature is also included.

Pumps are pre-fit with the appropriate fittings to match the hose ends. Suction hose comes with fittings and strainer attached and the 50' discharge hoses come with fittings attached and a fire hose nozzle. Larger 6 & 12 US gallon fuel tanks are available.

### Power Ease Pumps

Part #	Motor Type & HP	Max. PSI/ Head	Max. Flow Capacity	Outlet Size (in)	Liquid Temp.	Seal Type	Housing/ Impeller Type
HP-2070R	7HP 210CC PowerEase	85/197	126 GPM	2	100 F	EPDM	Aluminum
HPFK-2070R (Kit w/ Hose)	7HP 210CC PowerEase	85/197	126 GPM	2	100 F	EPDM	Aluminum
HP-2015R	15HP PowerEase	145/330	140 GPM	2	100 F	EPDM	Aluminum
