### Marker & Regulatory Buoys

Featuring rotationally molded high density polyethylene shells, our marker and regulatory buoys have uniform wall thickness, eliminating the internal stresses that cause cracking over time and under extreme temperature changes. Each buoy is UV-protected so colors will stay vivid for years. Combine them with a handy assortment of buoy labels, and you'll have no trouble relaying important messages to passersby in the water.

## Buoy Labels

Fade resistant, self-adhesive vinyl marker labels are brightly coloured for high visibility. Two labels are required per buoy, so they come in pairs. Each label is 13" wide x 24" long and warranted for 5 years against weathering or fading.
