Totes

Economy Cage Totes

Our liquid handling totes provide efficient and economical shipping, handling, dispensing, and storing of a wide variety of bulk food and chemical liquids where less than tanker load quantities are required. All totes feature a forkliftable/pallet jack accessible bottom and are stackable two-high when full and stationary.

Also features a slightly sloped, bottom discharge channel into a 2" outlet with ball valve for positive drainage. Pumps, valves, hoses, and other fixtures can easily be mounted to these vessels to create a variety of liquid handling systems.

USG	IG	LTR	Part #	Dia./Width	Length	Height	Fill/Discharge Opening
135	112	511	PPCP135UNSTD (STEEL/COMPOSITE BASE)	40"	48"	30.5"	Fill 6" / Discharge 2"
