DIY Dock Kits

Wooden Frame Dock Kits

Want to build a top quality deck in record time? Check out our Wooden Frame Dock Kits, the perfect “do-it-yourself” solution for ambitious on-the-water property owners and skilled contractors alike. The kits come with hot-dipped galvanized steel frame connection hardware, floats and a set of plans to get you started in building the dock that’s right for you. Add your lumber framing, decking and accessories, sold separately from BARR, and you’re good to go!
